Whereas the inhabitants of Hampton, from the commencement of its settlement reserved for their convenience & as we believe for the convenience of future generations a certain part of their territory, lying and bounded upon the Sea Shore, as we believe its whole length from one extremity to the other without any individual reservation whatever, & also in other parts of said town, that they have ever exercised exclusive jurisdiction over the same, that they at all times, & under all circumstances, have permitted its inhabitants to exercise and enjoy that privilege by using the same without any hinderence whatever, unless prevented by vote of said town, & further they ever did & ever have acknowledged the same to be controlled by the town & to be used by the whole town, which is sufficiently evident by various acts and votes of the town, & laws of the State in regard to the same. Notwithstanding, a few individuals of a later date, have made encroachments upon the same by enclosing & setting up personal claims &c, and by permitting such things to take place from time to time, in lapse of time, the whole territory, from one end to the other, will be claimed as individual

property and the public forever debarred therefrom.

Therefore Resolved - That we, the inhabitants legal voters of said town, will no longer submit to such encroachments from individuals of said town, and that there be a Committee chosen to look up such records as relate to the same and that said Committee examine all said public lands belonging to said town & lying as aforesaid, and they be defined by metes and bounds and a record thereof made.

Report of the Committee.

The committee chosen to carry into effect the vote of the town "to establish a High School" respectfully submit the following Report.

Having carefully considered the subject committed to us, we are unanimous in opinion that the most feasable plan for securing the benefits of such instruction as is usually given in High Schools is to make some arrangement with the Trustees of Stamplow Academy. At a recent meeting of the Board, your committee by invitation met them for consultation with reference to the terms of compact between them and the Town, and we found them disposed to do all that we could reasonably ask of them.

The terms, as arranged are as follows:

That without any expense to the Trustees, the Academy Building shall be removed from its present location and placed in some suitable lot more centrally situated to be provided by the Town, and the Building be put in good condition for occupancy.

The town will pay annually to the Trustees of the Academy, out of the school money the sum of four hundred and fifty dollars ($450) in consideration of which sum, suitable instruction shall be given to any number not exceeding thirty of the children of the town, that shall be found suitably qualified, and sent there by the committee of the town having the supervision of the schools; and that should the number at any time exceed thirty the town shall pay a reasonable sum at a somewhat lower rate per scholar for the number in excess of thirty

That the aforesaid committee, who shall have the supervision of the School, shall have a voice in the selection of a suitable person for a teacher whom they may nominate to the Trustees, but that the appointment of Teacher be made by the Trustees.

That the aforesaid committee shall ascertain the qualifications of pupils for entering the School and have a joint talent with the Executive Committee in prescribing a course of study and the general management of the school.

Joseph Dow, for the Committee

Hampton June 5. 1872

Voted To adopt the following resolutions.

Resolved; That a sum not exceeding five hundred dollars be appropriated to pay the expense of moving the Academy building on to a suitable lot, providing the expense of said removal be reasonable and just.

Resolved; That the Selectmen be instructed to take a Deed of said lot of land, not less than half an acre, and pay for the same,

Resolved; That the committee now in action in regard to High School purposes, be instructed to confer, and act with the Trustees of the Academy in selecting the said building lot, and in moving the building thereon.

Voted That the Selectmen appoint the High School committee.

Voted That an appropriation of twenty per cent of the school money be used and enough be taken from the town treasury to make up the sum of four hundred ~~fifty~~ dollars ($400) to be used for High School purposes. be authorized
